Web Feet Communications provides inspired strategic website design services to promote the online presence for the small business, church, nonprofit, and government agency.

Areas of experience include website design, website support, technical writing, meeting/event planning, and marketing and communications strategic planning.

The staff will ensure the use of best practices in website design and support which will lend itself to a competitive online presence and better client/customer conversion.

Web Feet Communications' mission is to provide the highest quality of service to improve the scalability for a business or promote a mission on the Internet and in the community.

About the Owner and Designer

Angela Burruss earned degrees in Mass Communications and Marketing. She has 25 years of website design and support experience. She worked for various entities including nonprofit, for-profit, and state government. Angela has been a member of the Public Relations Society of America (PRSA), BNI, local chamber of commerce, and other networking groups. Her professional goal is to design websites for those who are disenfranchised but have a significant purpose in the community.

Website Design Services ~ Positively Promote Your Web Presence

Website Design: Design a website with a well-structured navigation system and user-centric focus. Ensure the mobile site is responsive—mobile-first design is paramount for survival in today's online world. Best practices in website design are used to ensure the designs are user-centric and scalable for future growth.

Website Support: Ongoing website support is one of the most important tactics in a marcom strategic plan. A monthly or customized support plan ensures accurate, timely, objective, authoritative, and relatable content is included on the website. Best practices in website support are used to improve the user experience and maintain key goals for the site.

Marketing Communication Strategic Planning: Develop and implement a marketing and communications plan to educate the target audience about the business or disseminate a message to promote a mission for a nonprofit organization. This type of plan is crucial for startups and an existing business with an online presence.
